Special Machines

DP16

FOR DRUMS UP TO 200 LITRES

The drum press DP16 is designed for compression of oil drums and other drums without explosive contents. It is suitable for drums up to 200 litres.

The machine can reduce the volume of your waste with up to 90%. You can easily stack and store the compressed drums on top of each other, reducing the required space for storage considerably.

1 Compress your empty drums. 2 Stack and store the compressed drums. 3 The machine is suitable for oil drums and other drums without explosive contents. 4 You are able to reduce the volume of your drums with up to 90%.
