

Vertical balers

B-series B50

HEAVY DUTY COMPRESSION

The B50 can be used in larger retail shops and various industrial companies. It has a strong press force and is designed for efficient waste handling of cardboard and dry soft plastic.

The wide filling opening makes it easy to fill in larger boxes and other bulky waste. Rows of efficient barbs inside the chamber keep down the waste material, even very expandable materials like dry soft plastic.

Technical specifications

Press force (t)	50
Power supply	3x400V 50Hz 32A
Motor (kW)	5.5
Noise level (dB)	70-75
Cycle time (sec)	31
Dimensions WxDxH (mm)	1860 x 1055 x 3180
Weight (kg)	2025
Filling opening WxH (mm)	1200 x 600
Filling height (mm)	1210
Chamber height (mm)	1665
Stroke (mm)	900
Bale size WxDxH (mm)	1200 x 800 x 1200
Bale weight cardboard (kg)	400-500
Bale weight plastic (kg)	450-550

1 Compact your waste and eject the finished bale. **2** Remove and store the bale until collection. **3** Strap rolls are easy to replace in front of the machine. **4** The machine has a simple control panel.

- **Automatic ejection**
Two-handed operation ejects the bale
- **Large filling opening**
for handling bulky waste materials
- **Safe and steady opening of door**
Operated by a strong threaded spindle
