

# HIGH FORCE AUGER & CARDBOARD FEEDER

## DOUBLE YOUR BIN CAPACITY

The MZ3 is specifically designed to prevent bridging and blockages often encountered with the continuous feed of an auger compactor. This specialised feeding system ensures that there is no interruption to workflow and eliminates potential OH&S issues arising from removing large boxes or cardboard sheets.

### EXPECTED BIN WEIGHTS IN TONNES ( 31M<sup>3</sup> BIN )

Cardboard	6.0 - 8.0
-----------	-----------

### TECHNICAL SPECIFICATIONS

Torque	9550 Nm
Dimensions (with 31m <sup>3</sup> Bin)	2820W x 8165L x 2700H mm
Clear Top Opening (W x L)	1380 x 1220 mm
Throughput	70m <sup>3</sup> /hr
Electric Motor Size	0.75 kW (PZZ) & 15 (SPN) kW
Cycle Time	Adjustable: 30-180 seconds
Power Required	415V 63A (motor start circuit breaker)
Operational Noise	64-66 dB (at 1 metre)

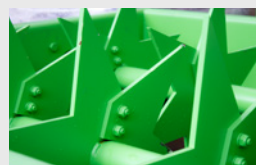

- /// ELIMINATE BRIDGING
- /// UNINTERRUPTED FEEDING
- /// ROBUST LOW MAINTENANCE DESIGN
