

SMARTWEIGH BIN WEIGH & CHARGE SYSTEM

Smartweigh

DISTRIBUTE COSTS BY WASTE VOLUME

No more estimates, no more arguments, the Smartweigh system provides accurate, comprehensive data on each individual disposal. The Smartweigh bin weigh and charge system, allows equipment owners to distribute compactor pickup costs between users and monitor usage.

INTEGRATED DISPLAY SCREEN

All relevant information is displayed on a live display screen including the status of the Smartweigh, weight of waste disposed and ID of the user. In addition, compactor operations are monitored through the same screen, showing compactor bin capacity and even troubleshooting tips!

RETROFIT OR CUSTOM DESIGNED

Designed to cater for bins from 120L to 1100L, the Smartweigh system can come equipped with your new Wastech compactor or be retrofit to any existing unit.

- /// INDIVIDUAL ID CARDS TO TRACK USERS
- /// SIMPLE OPERATION & DESIGN
- /// COMPREHENSIVE REPORTING

-  **POSITION**
bin onto loading arm
