

## Vertical balers

### B-series B30 W

## EXTRA WIDE FILLING OPENING

The B30 Wide gives you a baler that is easy to fill with the large filling opening. There is no need to fold even large cardboard boxes.

Inside the chamber, rows of retainers keep down the waste material, giving efficient compaction and a dense bale.

A full bale light indicates when the chamber has reached full capacity and the bale can be tied off. The eject bale system is activated automatically, avoiding fault operation.

#### Technical specifications

Press force (t)	30
Power supply	3x400V 50Hz 16A
Motor (kW)	4.0
Noise level (dB)	62-64
Cycle time (sec)	43
Dimensions WxDxH (mm)	2075 x 1275 x 3280
Weight (kg)	1670
Filling opening WxH (mm)	1525 x 560
Filling height (mm)	1260
Chamber height (mm)	1680
Stroke (mm)	1000
Bale size LxWxH (mm)	1525 x 800 x 1100
Bale weight cardboard (kg)	375-550
Bale weight plastic (kg)	400-600

**1** Compact your waste and eject the finished bale. **2** Remove and store the bales until collection. **3** Tying of straps through the press plate gives a compact and stable bale. **4** The wide filling opening ensures optimal loading of large boxes.

- **Fast cycle time**  
The baler has a fast cycle time of only 43 sec.
- **Flexible binding**  
Steel wire and strapping can be used
- **Good working environment**  
due to a very low noise level of only 62 dB
